

Maintenance of commercial kitchen refrigerators

Pay attention to the maintenance and use of refrigerator and freezer after buying the stainless steel kitchen refrigerator and kitchen freezer. Most people only know how to use the machines, but do not know how to maintain them. In fact, proper maintenance of refrigerator and freezer will bring us great benefits as well as great profits, which will not only prolong the service life of machines, but also reduce some unnecessary losses and troubles. Here are some tips on the use and maintenance of stainless steel kitchen refrigerators and freezers:

1. The refrigerator must be cleaned at least twice a year. Cut off the power before cleaning the refrigerator, gently scrub it with a soft cloth dipped in water or dishwashing detergent, and then wipe away the detergent with a cloth dipped in water.
2. Pay attention to prevent the stainless steel kitchen refrigerator from producing any peculiar smell. If failed, remove the smell promptly.
3. Do not use washing powder, scrubbing powder, talcum powder, alkaline detergent, boiling water, oil or brush to clean the stainless steel kitchen refrigerator in order to prevent damaging the outside overlay and inside plastic parts of the refrigerator.
4. Stainless steel kitchen refrigerator and kitchen freezer shall be installed on a place away from heat and with no direct sunlight.
5. The accessories inside the stainless steel kitchen refrigerator and kitchen freezer, if dirty or filthy, must be removed and cleaned with water or detergent. Clean the surface of electrical parts with a dry cloth.
6. Firmly insert the power plug after cleaning, and check whether the temperature controller is set in the correct position.
7. Unplug the power plug if the stainless steel kitchen refrigerator and kitchen refrigerator are not in use for a long time, wipe the inside of refrigerator, and close the refrigerator door after fully drying the inside.
8. Pay attention to the moving angle when transporting the stainless steel kitchen refrigerator and kitchen freezer.
